THE DAILY AVALANCHE

The Summit Tunnel through the Sierra Nevada mountains, in California, is complete.

There were only seven fires in Chicago on Friday last, the total loss being about $100,000.

Madame Ristori and her dramatic company sailed from Europe for New York on Saturday.

General Pope has suspended the Albany, (Ga.,) *News* for disloyalty.

Gold has been found in Franklin county, Kentucky. Great excitement!

Between the first of April and the end of July, not less than fifty-eight sovereigns and princes have visited Paris.

A club house is being erected in London which is to cost over *forty* thousand pounds, exclusive of decoration and furniture.

Crop reports from the sea islands grow more unfavorable daily. The caterpillars are creating sad havoc.

An editor referring to air-tight coffins, says: "No person having once tried one of these coffins will ever use any other."

The little Baltimore yacht, John T. Ford, was capsized by a sudden squall in the English channel on the 19th ultimo. Only one man was saved.

It is estimated that the long continued drought in Indiana has cut the corn crop of that State down to about half the usual average.

The large foundary at Chattanooga, belonging to Webster and Mann, was consumed by fire Saturday night. Loss $50,000.

Registration has closed in Alabama, and the returns so far show a majority of 26,838 for the negroes.

The wife of Hon. Benjamin Wood, of New York, was found dead in her bed on Saturday at her residence near Manhasset, Long Island. Disease of the heart is the supposed cause.

General Butler is building a red granite summer residence, solid, at Annisquam, near Gloucester, Massachusetts. We suggest that he call it "Spooney Hall," in commemoration of his military feats at New Orleans.

The Mexican General Diaz says the French Commander—Marshal Bazine—offered to hand over to him Maximilian, Marquez, Miramon, and the cities of Mexico, Puebla, and Vera Cruz, on conditions that he rejected, because they were dishonorable.

Mining is being prosecuted in New Hampshire with good success. A mine in Lisbon has yielded four thousand dollars in gold since January, and four hundred and seventeen tons of "dressed copper" have been taken from a mine in the same vicinity.

A private letter received in California, Missouri, last week, from a former resident of that place now living in Northern Texas, says the negroes in that part of the State have quit work and gone into camp, all well armed, and assert that they intend to take the law into their own hands.

Milton Hodson, residing near Painfield, Hendricks county, Indiana, died of hydrophobia Sunday, the result of a bite of a mad dog, received fifty-two days ago. It was a clearly developed case, attended by the usual horrors.

Hat makers at the Paris Exposition can make a hat from a rabbit skin in fifteen minutes. France furnishes fourteen millions of dollars worth of rabbit and hare skins per annum, of which she exports one half. She also exports two millions worth of felt hats per annum, and nearly half a million of silk hats.

Max Maretzek is negotiating with Pauline Lucca, of the Royal Opera of Berlin, now considered the first cantratrice on the Continent. But a few years since Pauline Lucca was a little "choir girl" in Vienna, and her parents were so poor that they could hardly pay for the music lessons which she took.

News of McCoole's victory over J s created great excitement in St. Louis, which was shared in by nearly all classes of people. Large sums of money changed hands on the result. Jones had a great many friends there who bet heavily on him.

At the Nashville Chamber of Commerce last Saturday, General B. F. Cheatham's crop of wheat was sold at one dollar and seventy-five cents for red, and one dollar and sixty-two and a half cents for mediterranean. This is the highest price of the season.

Several Mexican detectives are in New York in search of C. M. Medenich and several others, who are reported to have robbed the Mexican Liberal Government of $200,000 in gold at the time of the capture of Maximilian. He is said to have been in Maximilian's interest. A woman who accompanied him, sailed for Europe, and it is supposed with a part of the money, but will be intercepted there by the cable.

The St. Louis *Democrat* of Saturday suggests, in view of the condition of affairs in Washington, that the Governors of the loyal States meet together at an early day, and consult in regard to the situation. It also suggests a similar consultation on the part of the managers of the Grand Army of the Republic.

George W. Winnemore was executed at Philadelphia, Thursday, for the murder of Mrs. Magilton in April last. He made a speech on the scaffold, and asserted that he died for a principle, as Christ had done. He was a spiritualist, and declared that his spirit would come back to earth. He refused to receive a minister, and there was consequently none present.

The Knoxville *Free Press*, of the first, says: Charles Waddill, a typo in this office, during the week ending yesterday (six working days) set up the extraordinary amount of one hundred and eighteen thousand ems, being an average of nineteen thousand six hundred and sixty-six ems per day, working ten hours per day and keeping up his own cases. If any office, anywhere, can beat this we would like to hear from it. This is according to measurement of our foreman, and so entered upon our pay-roll.

The distillation of pine wood is carried on in New Orleans, realizing, as reported, from a cord of "fat" pines forty gallons of turpentine, one barrel of rosin, one barrel of pitch, 100 gallons of pyroligneous acid and fifty bushels of charcoal, the whole worth sixty dollars and costing ten dollars.

The latest experiment in pisciculture has been the raising of the salmon in the river Derwent, Australia. Three years since, the first batch of salmon ova arrived on those shores, having been transported sixteen thousand miles on ice. After this protracted journey, the fish hatched from the ova were turned out into the river, and now the habitants are rejoicing over a fine run of veritable salmon.

The lineal descendant of Dermot McMorough, the last Irish King, is now working as a stone mason at buildings at Toxteth, Liverpool. He is known by the name of D——. The undoubted representative of the Earl of Ulster, who flourished in the time of Elizabeth, and who gave that monarch a good deal of trouble in Ireland, is a policeman in the Liverpool police force. The grandson of one of the most eminent members of the Irish Parliament, who was not only distinguished as an orator and a beautiful lyric poet, but also for his patriotism and opposition to the Union, is now a barman in a spirit vault near the Liverpool Exchange.

It is rumored that Sickles will, on retiring from the command of the Second District, leave the army and commence the practice of law in New York.

The Radical press are vociferously demanding the publication of the letter of General Grant to the President, alluded to in the correspondence between them recently published. That letter, we understand, was a private communication, voluntarily made by General Grant—not in answer to anything from the President to him. Under the circumstances, the President, of course, does not consider himself at liberty to make it public without the consent of the General.

In the Episcopal Diocesan Convention held in Chicago, last week, a resolution was adopted instructing the Deputies of the diocese in the next general convention, "to procure by general common law, with suitable qualifications, a prohibition of the use of the marriage service of the church, in cases where either party contemplating marriage shall have been previously divorced by the civil law on grounds other than that of adultery." The deputies are also instructed to procure a rule of duty to be followed by clergymen, whose services are thus applied for in ascertaining the facts bearing on such prohibition.

A letter from Bordeaux, dated July 20, says: "The prospects of the wine crop for 1867 are by no means favorable. The inclemency of the weather has caused a spread of the disease known as the *oidium*, whose attack could not be warded off by the use of sulphur, owing to the heavy continuance of rain and hail, and high winds. It is now thought that only one-half or two-thirds of the quantity of grapes gathered in 1866 will be obtainable in 1867, and even this small proportion will be lessened if the weather does not improve. The inevitable consequence of these unfavorable prospects is already most apparent by an advance in the price of wine.

The New York *Herald* of the 29th sings the following Bucalic, and with much sense, so far as National Banks are concerned: The *National Intelligencer* makes a great fuss over President Johnson, and endeavors to create the impression that it is the especial and confidential organ of his administration. At the same time it is wholly in the interest of the Treasury harpies, from whose money it derives its support, and is in reality the organ of Chase, McCulloch and the national banks. It is nothing more than a spy in the Presidential camp; and although Mr. Johnson seems ignorant of the fact, it is hostile to him and is one of his most insidious and dangerous enemies.

The Cincinnati *Enquirer* of the 31st ultimo says: The following was the vote in round numbers of Ohio and Kentucky at the last elections in those States:

	Democrat.	Republican.
Ohio	205,000	257,000
Kentucky	90,000	23,000
	295,000	280,000

It will be seen that there are 305,000 Democrats in the two States to 285,000 Republicans. Now let us see how they are actually represented in Congress:

305,000 Democrats have	3 members.
280,000 Republicans have	16 members.

Did any body ever hear of a Government calling itself a popular one, founded upon the will of the people, that presented such an anomaly? Was there ever a rotten borough in England equal to it? Can such a state of things long be submitted to?

THE SENATORSHIP.

Brownlow to be the Thad. Stevens of the Senate.

From the Jonesboro (E. T.) Union Flag.)

Senator D. T. Patterson's term expires next March a year, and it will be the duty of the incoming Legislature to elect his successor.

Several eminent gentlemen of our party have been spoken of as his successor, and all, for aught we know, deserve the honor. Our best information is that the contest will be between Hon. Horace Maynard, Hon. A. J. Fletcher, General Cooper and General Stokes. Of course we shall be perfectly satisfied with the choice of the Legislature, but our individual preference is Governor Wm. G. Brownlow. The Governor is for confiscation straight out, always has been, and will at once become the Thaddeus Stevens of the Senate. The conservatism of this branch of the National Legislature, although Radical in the main, has seriously obstructed the progress of the only safe and equitable plan of restoration, the confiscation of rebel property sufficient to pay the expenses of the war, and remunerate loyal men for their losses incurred thereby. We want men like Governor Brownlow in power, who do not hesitate to approach an evil right at once, and extirpate it, root and branch, fearless of personal consequences.

A Singular Suit—A Father Tries to Rob His Child's Grave.

The Pittsburg *Chronicle* relates the following:

Justice Luke B. Davidson, of East Liberty, had a most singular case before him on Saturday. John Mehaffey came before that magistrate and made information, charging John and Patrick McLaughlin with violation of sepulture. The grave which the defendants are charged with having despoiled, is the grave of the child of one of the defendants. It appears that John McLaughlin, who is a Catholic, married a Protestant wife, and has been living with her in Wilkinsburgh. Recently one of their children died, and the father came to the city to make the necessary arrangements for burying the child in the Catholic burial ground.

While he was away the mother decided that the corpse should be buried in a Protestant cemetery, and immediately had it carried to the burying ground attached to the Beulah church, where it was promptly buried. Shortly after she had returned home, John made his appearance with two carriages, and all the requirements for a funeral. There could be no funeral without a corpse, however, and the corpse was missing. There was a scene of considerable violence, and John, accompanied by his brother Patrick, returned to town to get a coffin, vowing the child should rest nowhere but in the Catholic ground. On their return with the coffin they passed the house and the wife saw them. John pointed to the coffin and announced his purpose anew. The two went to the burying ground and the grave was pointed out to them. It was the wrong grave, however, and they had just reached the rough box inclosing the wrong coffin, when the officers of the law interrupted them, and they were taken before the magistrate, who, after hearing the case, in default of five hundred dollars bail each, committed them to jail to appear at court. Meanwhile the corpse is undisturbed in the Beulah cemetery.

A Specific for Hydrophobia.

Counsellor Lewchin, a popular writer on agricultural subjects in Russia, has made known what he affirms to be a specific for hydrophobia. The specific was originally furnished him by an old soldier, who assured the Counsellor that he had often cured both men and animals who had been bitten by mad dogs. An opportunity subsequently occurred to put the alleged specific to the test, and it seems to have been successful. One of the hunting dogs belonging to the Counsellor's brother ran mad and bit a huntsman. The usual appliances were resorted to for the purpose of preventing the spread of poison, but after some weeks all the symptoms of hydrophobia manifested themselves, and they had to secure the patient with many precautions. As there was no medicine to be had in the neighborhood, the Counsellor suggested that the old soldier's specific should be tried. Two doses of the remedy were given, one at night and the other in the morning, when the symptoms abated, and the man had no further attacks of delirium or of hydrophobia. At the end of a few days he was perfectly cured, and although eighteen years have since elapsed, he has had no return of the malady. The soldier said he had obtained the recipe from a peasant of Archangel. The specific which is thus recommended consists simply of the root of the water plantain, "oblong plantago," gathered in August, and dried and reduced to a powder. The mode of administering it is to simply spread the powder on a piece of bread and butter, and give it to the patient in small quantities at the intervals already mentioned.

The following advertisement appears in the *National Intelligencer*, this morning, and is exciting much comment:

The English Government Propose a Final Settlement of the Alabama Claims.

Close of the War in Candia and a General Amnesty.

RICHMOND, VIRGINIA, September 3.—Applications in bankruptcy in Virginia during the past week have exceeded the total number made since the bankrupt law passed.

NEW ORLEANS, September 3.—A special dispatch says intelligence has been received from General Sheridan to the effect that the order relieving him from command reached him on Saturday, and that he would turn over his command to General Griffin as soon as that officer could arrive from Texas. Radicals of New Orleans express a confident belief that Congress will see General Sheridan is returned to finish the work of reconstruction which he has so ably begun. Petitions are already in circulation urging this upon Congress.

WASHINGTON, September 3.—The President has appointed Judge T. Eldros, formerly member of Congress from Texas, Collector of Internal Revenue for the Fourth District of that State, and Colonel Minor, of Ohio, Collector of Customs at Galveston.

The Treasury disbursed during the month of August $25,000,000 for public service, mostly on account of debts contracted by the War and Interior Departments.

Commissioner Rollins has gone North for two weeks. All efforts for his removal will encounter resolute opposition by the Secretary of the Treasury, who declares there is no possible ground on which a charge against Mr. Rollins can be made.

Receipts of Internal Revenue to-day amounted to $1,508,039 50. For the month of August they reached $17,848,067 29, against $38,043,340 81 for the month of August last year. Total receipts for the fiscal year commencing July 1st to date, $4,400,000, against $65,000,000 for the same time last year, a decrease of $21,000,000 for two months, caused by the fact that the income tax this year fell due in May and June, while last year it was collected in August and September. The statistics for the year ending June 30, 1867, show that the aggregate receipts from whisky and tobacco combined, largely exceed receipts from the same sources for the previous fiscal year.

A *Tribune* special says the President is determined to relieve Howard, and is only waiting to find a man to put in his place. Pope can't be considered safe in his position. The President gives out that he will surely remove him. It is also given out that Mr. Brinkley is now engaged in preparing a report on Sickles. These reports will be submitted to the Cabinet before being made public.

LONDON, September 3.—Queen Victoria's speech proroguing Parliament is not very sanguine as to peace. She trusts no grounds exist at present for apprehending any disturbance with regard to Abyssinia. A peremptory demand for the liberation of the prisoners has been made, and, if necessary, measures for supporting that demand will be taken. The treasonable conspiracy in Ireland is referred to in severe terms, but no room is found for promising any redress for the great grievances which the Irish people still suffer.

The reform bill is referred to in general, unmeaning terms, and no announcement is made as regards the supplementary bills which must come up at the next session of Parliament.

The foreign office has issued a blue book containing the documents which have been filed in that department in the case of the Alabama, and the correspondence which has passed between the governments of Great Britain and the United States relative thereto. The last dispatch shews what progress has been made in the controversy, and gives the condition on which the English Government is willing to attempt a final settlement. In a dispatch addressed by Lord Stanley, Secretary of Foreign Affairs, to Sir Frederick Bruce, British Minister at Washington, and dated May 21, 1867, Stanley informs Bruce that England is willing to submit the claims of American citizens for damages caused by the Alabama, and all other demands on the part of the United States on common arbitration, if the claims of British subjects against the United States, for losses suffered during the late war, are likewise submitted to decision in the same commission.

In a circular note, the Porte announces to his ministers at foreign courts that the war in Candia has been brought to a close, and a general amnesty granted to the usurpers. The same note promises many reforms forthwith, introduced in laws and the administration of laws.

A Good Investment.

AS administrator of the estate of J. M. Lyles, deceased, I wish to dispose of either a half or six entire interest as lessee of the Mississippi State Penitentiary. My brother's lease continues for thirteen years, under an act of the Legislature of the State. My object in offering to sell this lease, either in whole or in part, is to relieve myself of the responsibility of personal attention to the management of the business, which must, of course, center at Jackson, the State Capital, and to be properly controlled would require my immediate and constant supervision. I am a merchant, have a family, and am PERMANENTLY located at Oxford, Miss., and am otherwise so situated that I cannot attend to the interest properly. The profits of this lease that attention which it deserves. There are at this time about two hundred convicts in the Penitentiary. For particulars address me at Oxford, Miss.

Our Southern Widows and Orphans

IT is the duty of every true Southern person to cast in a mite to the support of those who have been left in a dependent condition by the loss of a dear husband or an affectionate father, who laid down their lives in the defense of our most glorious but now LOST CAUSE!

And being impressed with a sense of this duty, I have determined to set apart, say one-fourth, of my net income for that purpose; and as my business is the publication and sale of the first classed Southern Literature, for which I have exclusive control, of Alabama and Tennessee, and the counties of Washington, Holmes, Alaba, Wilson and Noxubee, and six counties north of the same in the State of Mississippi, I feel assured that the good people of said section are willing and will assist me in my donation, and to this end I wish a gentleman or lady in every village and district, within the above named, who feels an interest in the needy, and who will give a few weeks time, energy and influence to the business, to canvass their respective districts for our standard Southern Historical Works. For such services we will allow a liberal commission on sales.

We wish the very best of citizens, and those who can and will take an active interest in our enterprise, to whom we refer to the following names, should they desire to make inquiries.

King's Patent Wrought Iron Tubular Arch Bridges

HAVE been in use throughout the Northern States for the past five years, and are superseding all other kinds for Turnpikes, County Roads and Railroads.

Hundreds have been built and put up, and, without a single exception, have fulfilled every condition, and stood every test required of a good bridge.

Being constructed wholly of Wrought Iron, upon a plan combining in the greatest degree Economy, Durability and Strength, they cannot fail to recommend themselves to practical men.

The undersigned having acquired the Sole Right to manufacture and put up these bridges in the States of Kentucky, Missouri, and the Southern States, is prepared to furnish them promptly.

WEDNESDAY, : : : : SEPTEMBER 4, 1867

THE First National Bank, at Washington, advertises in the *Intelligencer*, of last week, its desire to buy on order a "moderate amount of the eight per cent bonds" of the Confederate States, at "the best rates." We publish, elsewhere, the entire advertisement as it appears. The Radical press, through many of the Northern States have already exhibited signs of a sort of hydrophobia over this publication and rave about it as unmistakable evidence that the "rebels," as they term every body opposing their destructive policy, whether living North or South, are endeavoring, in this manner to excite another "rebellion" against the United States. It is a pretty sharp "dodge" for them to make just at this time, but like all others very open to detection. President JOHNSON, during the last month, has awakened to the fact that he occupies a position in this Government which entitles him to certain powers to be exercised in protecting the rights of the people at large, and in communities as States. Radicalism has ignored such fact for many months, and has overriden all the bars this fact's existence placed in the way of the progress of lawless despotism. To prevent the President from doing just what he has most commendably done, conspiracies were concocted to connect him with the plot to assassinate his predecessor in office, and with other and lesser crimes, for the purpose of hurling him from power. These damnable designs fell, through exposition, harmless to the ground, at the very moment when Mr. JOHNSON commenced to illustrate that he is really Chief Magistrate of a republican people. Radicalism was then forced to other tactics to hold its unlawful and ill-gotten sway. Assassination conspiracy and impeachment being no longer useful levers, because TRAD. STEVENS has said so, the next best lick must be struck to keep the plunderers' hands in the pockets of the already impoverished and down trodden Southern people, to pay for fostering hate towards them, which would otherwise die out. Confiscation, then, is next in line, and is what such fiends as the STEVENS and ASHLEYS insist upon. But the President threatens a general amnesty, which would preclude a sweeping confiscation of "rebel" property to Radical avarice. To flank this move, "loyal" brains set to work, and we believe we perceive the result of their labor in this proposal to purchase "eight per cent. Confederate bonds" at the "best rates." The whole world knows what these and all other bonds issued by the late Confederacy are utterly worthless, and not a third of them, we suppose, has shared any sort of careful preservation. But Yankee cupidity has fallen upon the plan to make whatever number of them is left subserve the thwarted general confiscation of Southern lands and wealth, by getting them into Yankee possession; and this being accomplished, their partisans in Congress, both from hatred and interest, will insist upon the passage of a law to make the "rebel" portion of the South responsible for the bonds they had issued, and which will be held by "loyal" citizens to the Government. Much, very much, more danger is there of this result than to suppose that anybody in the South, by such a thing, means another armed attempt to separate from Federal control. Rascality upon rascality is the soul of Radicalism, and this is its last illustration of it.

THE Medical Department of the Washington University, of Baltimore, Maryland, has announced that it would admit one student from each Congressional district in Arkansas, upon the payment of thirty-five dollars for each session of attendance—wounded and disabled soldiers having precedence over other applicants. Whether this applies to other Southern States we have not heard. Doctor GEORGE W. LAWRENCE, the distinguished and popular resident physician at the Hot Springs, Arkansas, has, in order to insure the advantages of this offer to his State, with a generosity characteristic of him, proposed to pay the stipulated sum named for the next two years, and to supply to the successful candidates, as they graduate, such text books as may be needed by them in beginning the practice of the profession. Applicants will submit testimonials of character, with proper references, to Doctors P. O. HOOPER, J. J. MCALMONT and J. A. DIBRELL, Little Rock, Arkansas, who will decide upon the merits of the applicants. This will afford a fine opportunity for some of the talented young men of Arkansas to acquire an honorable, philanthropic profession under the patronage of a citizen of Arkansas, of whom the State may well feel proud, and under the cultivation of an institution deservedly high.

WE were pleased to meet, last night, our distinguished and honored friend, General A. J. VAUGHAN, of LaGrange, who has just returned from a five months' trip to Montana Territory, where he has been to visit his father, whom he had not seen for several years. He has outlived the Indians and all the dangers incident to such a fatiguing and hazardous trip for a one leg man. With heartfelt love we welcome him home again.

General Grant has requested to be relieved from attendance at Cabinet meetings except when military matters are under discussion, as he does not think it proper for a military officer to take part in political discussions.

Aaron Jones, loser of the fight, has been conveyed to his place of training at Shady Grove, four miles from Cincinnati. Medical examiners say that two of his ribs have sustained compound fractures from the terrific blow received at the hands of McCoole in the 29th round. The blow which finished the fight was received upon the forehead and produced concussion of the brain and vomiting. A slight congestion of the lungs also ensued. His condition is not regarded as extremely critical, but he will require care and good nursing for recovery.

FROM LOUISVILLE.

LOUISVILLE, September 3.

The river is stationary with three feet nine inches in the canal.

Governor Helm being too unwell to proceed to Frankfort to be installed as Governor, the inaugural ceremonies were performed at Elizabethtown to-day. In his inaugural he returns his heartfelt acknowledgments to the people for conferring the Gubernatorial office upon him, and he will defend and maintain the Constitution of Kentucky. He says the object of the Democracy of Kentucky is to save the Constitution and the Union and rescue the government from the vandal grasp of the Radical Congress whose governing principle is "rule or ruin." He entreats the people to forget the bitterness of the past and forgive its errors, remembering that to "err is human, to forgive is divine," and when we keep the heel of military despotism upon the people often of our sister States, then we may cry out against the oppression of England against Ireland, Russia against Poland, Austria against Hungary; but the world will think we may well be silent till then. He denounces the action of Congress in excluding the Kentucky Delegation, and referring to the negroes, says we should treat them honorably and kindly, and teach them to strive to better their condition and make themselves useful citizens. They must understand, however, that the white man will rule Kentucky, as we are not yet sunk so low as to consent to be governed by negroes. In conclusion he says: "There are no secessionists among us now. We are all for the Union and Constitution, and let not the true men of the country give comfort to their enemies by foolishly fighting over dead issues of the past."

FROM NEW ORLEANS.

NEW ORLEANS, September 3.

The *Times* of this morning, in reviewing the presence of the yellow fever in this city, says that during the last half of the month of August, only four natives of the State have died, and the others were foreigners.

There were twenty-five interments yesterday.

FROM GALVESTON.

GALVESTON, TEXAS, September 3.

The River is unabated to-day. Doctor Rowe, an army surgeon, is very low. Doctor Adams, the medical director, was taken to-day. General Potter is said to be improving. General Griffin's only child and its nurse were taken last night. He has telegraphed to remove the head quarters of the Fifth Military District to this city. Lieutenant Garrison, who was appointed to take charge of the Freedmens' Bureau, vice Kirkham, deceased, died to-day.

The Missouri Radicals are nonplussed about Grant, and the leading Radical paper of St. Louis declares him to have forfeited Radical confidence.

General Pope issued last Saturday his order for an election in Alabama. The election is to begin on the first Tuesday in October and hold for three days. Voters to vote for or against a Convention, and for delegates to the same as they may see proper.

It is stated in the *New York Weekly* and the *National Intelligencer*, that Judge Magrath, of South Carolina, the United States District Judge of that State in 1860—a violent secessionist, and the man who "adjourned the Federal Court in Charleston forever," on the ground that "the election of a sectional President by a sectional majority, was a sufficient cause for the freemen of South Carolina to assert their inalienable rights of self-government, and for the State to resume her unquestionable sovereignty, and snap the bands which bound her to a hated Union"—is now the chief clerk of General Sickles, his confidential adviser, and the warm defender of his course.

The Prize Ring—Excitement in Cincinnati—Jones Terribly Used Up—A Collection for Jones.

CINCINNATI, August 31.

The excitement in the city to-day on the announcement of the result of Jones and McCoole's fight was intense. The trains from the ground returned this afternoon about three o'clock, bringing McCoole, who, on the way down, passed through the train and raised a subscription for Jones, heading the list with fifty dollars.

McCoole is apparently uninjured, having but a slight cut above his left eye.

Jones was unconscious for ten minutes after the fight was over. He has two ribs broken and the frontal bone crushed in. He was conveyed to Hamilton in a carriage, where he now remains.

McCoole forced the fighting all along, Jones apparently acting on the defensive.

MARRIED.

At Calvary Church, Tuesday, 3d instant, by Rev. J. M Schwrar, Captain G. T. BEAUMONT to Mrs. ISOBENE A. DULOACH, all of this city.

With peculiar feelings of pleasure do we record this event in the lives of these friends, which we sincerely hope but opens up the path of unclouded happiness through their future on earth. A truer man does not live than TRUELOVE BEAUMONT, nor had the armies of the late Confederacy a more gallant and devoted soldier in its battle-serried lines. In all the relations of life, we know of no one more unexceptionable than he, none more deserving the enjoyment of the "green and gold" of existence which a well appointed marriage gives. The fair and gentle lady who has placed her hand in his for guidance and protection may rest assured that the trust has been most worthily confided. It is said by the poet that

"The spider's most attenuated thread
Is cord—is cable—to humanity's tender tie
On earthly bliss."

But such is not ever true, for we have often seen two loving hearts not only make life beautiful as ideal pictures, but rivet to fate a breakless chain of happiness and content. May it thus be, as we feel it must, with these our friends who have just pledged their faith in the face of changing years which circle across our hearth stones and plant upon our heads the silver touch of tremulous, weakening age. EDS. AVALANCHE.

DIED.

In Peoria, Ill., on the 31st ultimo, at the residence of her mother, Mrs. Lucy Brockett, Mrs. HENRY R. DOWNS, of Memphis, Tenn.

At Bardstown, Ky., on Sunday, the 1st instant, at three o'clock, of congestive chill, Mrs CATHARINE ANN WILLMIT, wife of George E. Willett, in the fifty-ninth year of her age.

Liberal Advances—Supplies at Wholesale Prices

Commission for Selling Cotton $1 per Bale.

To the Cotton Planters of West Tennessee, Alabama, Mississippi and Arkansas.

THE undersigned respectfully tenders his services as Agent for the sale of your cotton in this city, and for the purchase of your supplies. The unfortunate termination of the late war, which has materially affected the best interests of the South, has rendered the services of commission merchants in this city, as transacted between planter and merchant, too doubtless well remember with what pertinacity (previous to the war) amounting in some instances to usurpation, you were solicited for your business, at the rate of fifty cents per bale commission, for selling your cotton, and your supplies bought without charge. Then (as will be again) the producer was the ruling element, and high were the honors and rich the rewards were the result of planters' patronage.

No people or occupation have been more seriously prostrated than planters and planting, and none so much deserve to be fostered and aided in their unfortunate changed condition.

How that aid, so much needed, has been meted out, you, I opine, too well know. Onerous government taxes in general, and a special tax upon your leading production, cotton; large profits you have had to pay upon supplies furnished; commission on sales; storage and charges, and for the last six months storage at exhorbitant prices, and other expenses, as per reference to your account of sales, as a rule, will leave you but little, if anything, upon which to rebuild your shattered fortunes, as to compare with the new order of affairs, from later.

When I withdrew from the cotton commission business in 1861, private reasons then led me to believe that I would never engage in it again. The solicitations of many friends, that were former patrons, and a desire to promote the interest of the planting community so far as my feeble efforts can do so, and the apparent want of gratitude exhibited to a community that in times past has bandered so materially to the prosperity of Memphis and its mercantile community, has determined me again to offer my services in the capacity as stated. The produced stock of cotton in the United States and short supplies in the hands of New England manufacturers, has caused some advances in prices from the late depression, hence early sales may be considered and remembered favorably; such the case the past two seasons, and many planters have had cause to regret the acting upon the too common practice of holding and drawing upon their cotton. I would advise no planter to send forward his cotton unless he wished it sold upon the first active market; it can be held at home much cheaper than in Memphis.

My charges for selling cotton will be one dollar per bale. Insurance effected in all cases, if not instructed to the contrary. Shall buy your supplies from wholesale houses, giving you the benefit of same. In short, by strict attention to your interest in all the departments of our business, I hope to merit a large share of patronage.

Very respectfully,
aug30-6w R. A. MOON.

LYON'S

PERIODICAL DROPS!

THE GREAT

Female Remedy for Irregularities

I HAVE tested these Drops in my own practice over ten years, and do not hesitate to say, that nothing has yet been developed by medical research that acts so powerfully, positively and harmlessly, in cases of female irregularity, as does this medicine. In all recent cases it never fails, while thousands who have been long sufferers, are indebted to it for the boon of health to day.

Although so powerful and positive, they are perfectly harmless, and may be used at all times, except when specially forbidden in the directions.

They have been extensively employed by eminent physicians in France and England, as well as in my own practice, over ten years, and I have yet to hear of the first instance of failure. I could give you testimonials of their efficacy from ladies all over the Northern and Western States, were they not in the hands of agents. Over one hundred thousand bottles have been sold the past year, and I hope and trust as many sufferers have been benefitted. I am well aware that a remedy so potent to remove all obstructions, may be used for a bad purpose, but trust that very few bottle is thus used, ten may fail into the hands of really needy sufferers.

To all who suffer from any irregularity; painful, difficult, excessive, offensive or obstructed Menstruation, Locorrhea, or the train of diseases that follow, I would say, try a bottle of DR. LYONS PERIODICAL DROPS, being a fluid preparation, their action is more direct and positive than any pills or powders. Explicit directions, bearing my fac simile, accompany each bottle.

They may be obtained of nearly every druggist in the country, or by inclosing the price to C. G. CLARK & CO., New Haven, Connecticut, General Agents for the United States and Canada.

FRENCH MEDICINES PREPARED BY GRIMAULT & COMPANY

Chemists to His Imperial Highness Prince Napoleon.

THESE different medicines represent the most recent medical discoveries, founded on the principles of chemistry and therapeutics. They must not be confounded with secret or quack medicines, as they bear no definite their composition; in circumstances which has caused them to be appreciated and prescribed by the faculty in the whole world. They differ from those numerous medicines advertised, in that the public, buyers are able to cure himself of disease, as they are widely diffused in all countries. The most stringent form with respect to the sale of medical preparations, only be sold at very low composite. The most stringent form with respect to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved effective, either in the hospitals or in the practice of the physicians, are authorized by the government. This fact must be a guarantee for the excellency of Messrs. GRIMAULT & CO'S medicines.

Dr. Leras' (Doctor of Medicine) Liquid Phosphate of Iron.

The newest and most esteemed medicine in cases of CHLOROSIS, PAINS IN THE STOMACH, DIFFICULT DIGESTION, DIMINUTION OF MENSES, ANEMIA, GENERAL DEBILITY and POORNESS OF BLOOD. It is particularly recommended to regulate the functions of maidens, and to all ladies of delicate constitution, as well as to persons suffering under any kind of debility whatsoever. It is the preservative of health per excellence in all warm and relaxing climates.

No More Cod Liver Oil—Grimault's Syrup o Iodised Horse Radish.

This medicine has been administered with the utmost success in the hospitals of Paris. It is a powerful substitute for COD LIVER OIL, and has been found most beneficial in DISEASES OF THE CHEST, SCROFULA, LYMPHATIC DISORDERS, GREEN SICKNESS, MUSCULAR ATONY and LOSS OF APPETITE. It regenerates the constitution in paralysis the blood. It is among the most powerful depurative known. It has also been applied with happy results in DISEASES OF THE SKIN. Further, it will be found to be of great benefit to young children subject to RUMORS and OBSTRUCTION OF THE GLANDS.

Consumption Cured—Grimault's Syrup of Hypophosphite of Lime.

INTERESTING TO PLANTERS.—The cotton growers of that wide district of country of which Memphis is the center will see by an announcement in another column that Robert A. Moon, who, for twelve years, was the leading man in the house of Titus & Co., is now located as a cotton factor and commission merchant at No. 276 Front street, up stairs. He does business on cash basis, is a high toned gentleman, and stands well among the planters of Mississippi, Tennessee and Arkansas, who have always found him prompt, correct, enterprising and obliging.

QUITE CONTRARY.—An engineer called at the Allen House and took rooms for himself and partner, and suddenly removed to the Virginia House. We are assured the man called himself Foster, and he must be a scoundrel, for the City Engineer cannot be such a man.

A GOOD CINCINNATI HOUSE.—The firm of A. A. Spencer & Co. has transferred its business from Nashville, Tennessee, to Cincinnati, Ohio, where, on the corner of Walnut and Water streets, it will do a commission merchant and cotton factor business. This firm has facilities for doing business, and is composed of reliable gentlemen, who understand the cotton trade thoroughly. We commend them to those who desire a reliable house in the Queen City.

PREPARED FOR EXTENSIVE BUSINESS.—The general commission house of Moore, Whitfield & Co. has made ample arrangements for enlarging their business—especially in that branch which is connected with the cotton trade. Successors to the firm of Moore, Whitfield & Rayner, they have had a great deal of experience, and can refer to the planters of Mississippi and Arkansas, with whom they have had dealings for years, for proofs of their capacity, promptitude and reliability. The firm is composed of Southern gentlemen, and from the character of its members deserves a large share of the trade of Memphis.

Emmons & Son, No. 10 Jefferson street, and 393 Main street, have received the Waverley Magazine, Wilkes' Spirit of the Times, New York Citizen, Monro's new Dime Novel, Mac Iver's Weekly, Police Gazette, Appleton's Railway Guide, London Quarterly Review, Pleasant Hours, Yankee Notions, Comic Monthly, Northern Magazine, all for September; Italian papers, Frank Leslie's Almanack for 1868, and some late French novels, just received, and St. Louis, Cincinnati, Chicago, Louisville, New York papers.

TRANSFER OF REAL ESTATE.—James Marling to Aaron Jackson, mortgage, $815, lot 433 6 10 feet, on Memphis and Carrville Plank-road, by 100 feet, near J. A. Rousseau's, northwest corner.

A. T. Lacy et al to Samuel M. Jobe, deceased, $4,000, west half of lot No. 3 in Mosly's subdivision, lying on Robinson street, 144½ feet on said street, by 30 feet.

H. G. Harrington, trustee, to A. Cooley, deceased, to secure $1,000, lot 2 chains and 66 links, on Walnut street, by 10 chains and 97 links, being the north half of lot No. 32.

Ferguson & Lobe to L. Dryfoos & Co., transfer of lease, $3,000, lot 62 feet on Orleans street by 140 feet, being the north half of the lot leased to S. A. Norton by Mary A. McComb.

[COMMUNICATED.]

MISSISSIPPI AND ARKANSAS TRANSPORTATION COMPANY.—Among the many arrangements for shipping East-North, West and South, to and from Memphis, which have the greatest facilities in the company instituted in 1866, and now under the superintendence of William Jay Johnson, of the Star wharf-boat, a gentleman of large experience as a merchant, of great activity and energy of character, and of unblemished integrity. Agents have already been appointed in the large cities, and have accepted the several positions assigned them. Our young friend Frank Gunterman, admirably posted as he is, has gone to Louisville to take charge of the company's interests there. Messrs. George L. Johnson & Co. are the agents at Cincinnati, S. B. Hardeal at St. Louis, and there are agencies on White and Arkansas rivers. Active preparations are being made to have these agencies established at every important point, so that in transit there may be no delay, or, if an accident occurs, which is not probable, it may be at once adjusted. These agencies will be so distributed as to form a chain of connecting links between this place and all the cities East, North, West and South, and receipts will be given for freights on fast lines. The arrangements have been made with such completeness, as to preclude any apprehension of delay or mistake. The company having been in successful operation during the past year, and having given invariable satisfaction, a large share of the business of transportation is confidently anticipated, and from our long acquaintance with Mr. Johnson, the Superintendent, his wide spreading agencies, reaching every point of any importance, we have full faith in his success.

We would call the special attention of our friends in Mississippi and Arkansas having goods to be shipped from the East, and from Louisville, Cincinnati or St. Louis, that they can insure their early transportation by engaging their shipment on this line, and their delivery in the shortest possible time. This company is prepared to give through bills for cotton from Memphis to any point, on fast lines and at the most reasonable rates.

BRIEFITAS.

The Resolute and Eagle base ball clubs will play a match on the Eagle's grounds on next Thursday afternoon.

The track of the street railroad on Hernando street is nearly completed.

Durkee and Brown, were fined ten dollars each, for shooting inside of the corporation.

Great preparations are being made for the Base Ball Convention to be held here on the 11th of this month.

John Anderson, a farmer residing on Presidents Island, brought yesterday to the city a sweet potato that weighed seven pounds some ounces.

Mr. Garnett Parker, who has been in the cotton business for ten years, has now a fine cotton shed, and is worthy of patronage.

Sam Wolf was arrested, on Monday morning, for stealing a cow that belonged to Mr. Murphy, who lives on Causey street near Vance.

Dick Folwell, a negro boy, was arrested for stealing thirty dollars from the house of Mr. Cash, on Beale street near De Soto.

A negro named John White, was arrested for attempting to shoot another negro, named Tom Brown in a saloon on Gayoso street, on Sunday night.

The dry goods store of Klein & Brother, on Main street, was entered by boys thro ugh a back window, and robbed of goods to the amount of $145, and $80 in money. A negro porter has been arrested on suspicion.

Some wealthy gentlemen have purchased and will put in good condition the Planter's stable, on Second street, No. 361-7, and will make one of the best institutions of the kind in the city. It is to be superintended by the clever and obliging Captain Louis.

There are over half a dozen descents a week at the saloon of Bob Church by the police, who wish to make arrests. Bob is not Radical enough, or he wouldn't be troubled, any more than others are.

The New Orleans Cricket and base ball clubs, that are coming here after they play a match with the best cricket club, intend to play a match with a picked nine from the best base ball clubs in the city.

A hard working Hibernian, named John Kelly, was carrying a hod full of bricks up a ladder at Fort Pickering yesterday, when he let it fall, and thus damaged the skull of another named Pat. Connors.

Tom Woods, a Mackerel, was arrested yesterday for stealing a lot of cigars and tobacco from the store of Mr. Ackerman, on Front street. There have been over a dozen boys arrested for the same offense at this same place.

A negro boy named Jerry Swift, who works at Tom Allen's barber shop, was arrested yesterday for stealing forty dollars from his employer.

John Kearny was arrested yesterday for stealing a box containing $15 worth of goods from the store of Thornhill & Co. on Shelby street. He was taken before Squire Moore and held to answer.

A fire broke out in a beer saloon on McCall street, on Sunday night about nine o'clock, but the engines were quickly on hand, and it was put out in a few minutes. The damage will not amount to over $50, done mostly by water. The place is owned by Jacob Minor, a German.

A gentleman man d James Johnston, was coming from church on Monday night, and when he was sit down Front Row, near Washington, he was knocked down and robbed of $1 and a fine gold watch, by two unknown men. When a policeman came the robbers had ran off. Mr. Johnston resides on Prouencde street, near Jackson.

The accomplished Coroner Cotton is about to visit the land of Georgia. He is well now, but expects to feel better when he gets back. While he is absent, the genial 'Squire Miller has generously agreed to try the dead cases.

It is stated that the colored population will at the next election put in nomination Joseph Clouton and C. C. Dickinson for Aldermen. Most of our old citizens know both of them well. The former is more than half white; the latter more than half black.

It was reported yesterday that the body of a small boy was found in Wolf river, but neither at the Coroner's office nor elsewhere could further particulars be obtained.

Dan Herbert was arrested yesterday for stealing $20 from a bureau in the house of Mr. French on Poplar, near Third street,

Frank King, a negro, was arrested for stealing a wagon load of watermelons from the garden of Mr. Hudson on South street.

Colonel A. Hogeland, special something of the Revenue Department, who, in the words of one of the subordinates, "goes about raising h—ll with revenue officers every where," has been here on a special visit, and was expected to leave last evening.

It is reported that finding that neither the city nor county authorities are disposed to spend ten or fifteen thousand dollars for building a bridge over the bayou at Third street, to accommodate the people of that growing suburb, they have got to be almost unanimously in favor of annexation to our city.

Mr. Rounds and Captain J. J. Butler are pushing forward the work for the new gas company with the utmost energy. The mains are now being put down on Main street. This celerity gratifies every body. The new Company expects to reduce the price of gas from six to three dollars a thousand feet to general consumers.

It is reported that Little General Smith, now State Senator Smith, don't want to be Speaker of the Senate. He don't want to be Governor if Brownlow dies, but he does want to be United States Senator. Why shouldn't he? Ain't he the wisest, best, most capable and most honest man that Radicalism could put forward?

We learn from a friend that Dr. Asa Brunson, near Pine Bluff, Arkansas, killed a negro a few days since who tried to rob him. The black snapped a cap, but his gun did not go off, and the Doctor, who had a double barreled shot gun, fired at once and killed him.

A correspondent says he has been much amused at the manner in which the County and Police Commissioners dispense their patronage. At the foot of their advertisements they still say: "Post copy one month; *Bulletin* one week." If the *Bulletin* grows in Radical grace, it may, he thinks, get by and by, two weeks or more.

Very few persons in Memphis who do a retail busin ss gather daily as much cash as the exhibition of the patent electrical machine that stands in the public streets. He charges ten cents a shock, or three shocks for a quarter of a dollar, and his machine is so incomprehensible to the blacks that they keep trying it all the time. Hundreds are shocked every day.

Dr. Burnell's museum, on Front street, between Court and Jefferson streets, is not one of the swindling shops that from its external appearance one might suppose. It has a large, but really a very fine collection of birds, monkeys, and other animals. Its most marked feature is that the animals shown are beautiful specimens of their kind.

The Radical gentlemen whose friends are pressing them for the Mayoralty are Alderman Wickersham, Alderman Shaw, Dr. W. H. White and Dr. Bucher. In their behalf a great deal of lobbying is now done in colored leagues. Dr. Tolles has been pressed to become the colored Radical candidate, but thinks colored men should be moderate in their demands, and not at present insist on more than two or three Aldermen and half the other subordinate officers. He is in favor of having one half the police colored.

It is reported that a serious shooting affray took place in LaGrange on last Monday morning. There had been bad feeling for some time between Frank Byrne and John Pinknards. When they met on Monday morning Byrne made some very insulting remark, which so enraged Pinknard that he drew a revolver and fired three shots. One entered Byrne's neck, inflicting a bad flesh wound. Pinknard then fired two more shots, one of which entered Byrne's shoulder. Pinkard was taken into custody and the wounds of Byrne, which are not likely to be fatal, were cared for.

A passenger on a train yesterday reports that a man named Georgs Foley was shot in the left eye on Sunday morning, in Jackson, Tennessee, and instantly killed, by a man named Tom Mayers. It seems that Foley was drunk, and so was Mayers. They were playing cards, and had a quarrel. Foley was beaten in the game, and had to stand the drinks. He said that Mayers had cheated. Mayers then drew a navy revolver, and told Foley that he would shoot him if he said that he had cheated. They were then separated by the spectators, and both went home. But as Mayers was going home he called Foley, and as Foley turned round, fired two shots. The first one missed him, but the second entered his eye, and he fell, saying, "My God, I am shot." He expired in a few minutes. Mayers is still at large. Foley is an Irishman, and is a farmer. Mayers is a German shoemaker.

A BOOK THAT WILL CREATE A SENSATION.—The writings of Ouida have not generally impressed us favorably, relative to either their plot or style, and we were fast arriving at the conclusion that we would read no more of Ouida's numberless productions, when, glancing at one that has just made its appearance, we became interested so deeply that we have read it through, and have found it one of the best war stories recently published. It is called "Under Two Flags," and is a natural but thrilling story. Originally written as a serial for a military magazine, it is more sensational in character than any other of Ouida's works. It is sold only in this city by Bielock & Co., No. 315 Main street, and each lover of good stories should by all means obtain a copy.

MEETING OF THE CITY COUNCIL.

Dull Proceedings Last Evening.

The City Fathers held a regular meeting last evening. Alderman Shaw was chosen to act as Chairman during the absence of Alderman Hulbert.

The City Engineer reported the expenditures of the month as $93,721 32. There was $100,000 50 for Nicolson pavement; the city's part of this being $38,000 00.

The Tax Collector reported collections in August as $34,-851 40.

The Market Master of Beale street Market reported his collections as $268 87.

The Market Master of Poplar street Market reported his collections as $274 25.

The Wharf Master reported his collections in August as $2,537 25.

The City Physician, Dr. Keller, reported that during August there were 104 patients admitted, and 230 in all treated in the hospital. There were 124 discharged and twenty three deaths. Twenty-two still remaining under treatment. Dr. Keller submitted the names of Messrs. H. Treavant and J. B. Armstrong, who propose to be resident students, and thus assistants of Dr. Keller, and will a k no other remuneration.

The Street Commissioner reported the names of seven parties among whom 32,000 brick taken from the old pavement were distributed.

The City Inspector reported the receipts of his office during August as $266 81.

The City Tax Collector on Privileges reported his collection, in the month of August as $15,681, which constituted the bank's log capital on which Beaumont & Co. issued police scrip.

The Fire Warden reported five fires in Augus . Four were caused by incendiaries and one by carelessness. Total loss, $7,350, on which there was $7,000 insurance.

Mayor Lofland sent in a message, suggesting that something should be done for the three or four hundred Mackerel boys in and about Memphis. He proposes that the fifty-four acres owned by the city on Cane creek shall be appropriated to that purpose, and hopes a committee may be appointed in reference thereto. The Mayor is fearful that Main street will not be paved this fall. He favors the paving of Auction and other outlying streets with conglomerate and gravel, similar to the pavement of Paducah, and suggests the visit of the City Fathers to Paducah. The correspondence between the Street Railroad Company and Acting Mayor Lynn, in reference to the removal of the track from Main street, was given. The Company claims that they got their grades from the city, and can't be required to go to the expense of changing them. If the city bears the expense, well; if not, the Company will claim damages.

City Controller Clark asked and obtained leave of absence for ten days. He reported that the disbursements for August were $238,659 18.

Alderman Bolling handed in his resignation, making at the same time a little speech. He really didn't regret having associated with the Board. This astounding statement was calmly received by the Board. Alderman Bolling went a step farther. He not only did not regret his association, but he had found it pleasant. He had sought the city's good. He regretted that efforts to do good to the city had been thwarted by demagogue politicians, who only sought to defame and degrade every honor and interest. His resignation was quietly accepted.

Napoleon B. Hill was, by acclamation, elected Alderman of the Fourth Ward for the vacancy thus created.

The Improvement Committee reported in favor of a bridge at Market, one on Hill street, and one on Quinby street, and these reports were accepted.

The Committee on Accounts through its Chairman reported in favor of about a million little accounts, which were allowed by the Board.

The Finance Committee reported that the museum on the corner of Second and Jefferson streets is a nuisance, and its suppression is recommended. This was approved of by the Board. A number of small financial cases were disposed of.

The Landing Committee recommend that the Wharf Master have power to authorize merchants to have freight on the landing for twenty-four hours. Approved. The application to quit sand from the bluff, and one to lease ground, and one to keep a wharf boat were reported on adversely. Report approved.

A resolution to arrest parties having sand privileges was offered. Alderman Glassy wanted to lay it on the table. His motion was lost. The resolution was amended to withdraw all permits to take sand, and thus it was passed.

The Landing Committee also reported adversely to petition for placing snack stands on the wharf. A party was allowed to place a fly-go to the river.

No report was had from Committee on Fire Department, Printing, Bonds, Public Parks or Water Works.

Steve Sullivan was allowed two hundred dollars for whitewashing markets.

The ordinance to pave with stone Union and Adams streets from Front Row to the river passed its second reading.

A Committee reported in favor of paying Waldraven for services as Chief of Fire Department. Alderman Bolling opposed, and asked that it should be laid on the table, which was lost. The nays were Cochran, Wickersham and Holst.

A motion to approve the report was made.

Alderman Wickersham was opposed to paying those who resisted the Board. The court held that he was not an official and so he had no right to be paid; but as he was a good officer he had a right to be paid. On the whole, the claim was indefinite.

Alderman Holst held that Mr. Waldraven had no claim. He had lost his case in the Supreme Court.

Alderman Passmore said others had been paid for claims for services, and he saw no reason why Mr. Waldraven should be rejected.

Alderman Lynn wanted a definite amount presented.

Alderman Wickersham wanted the claim referred to the Committee on Accounts, which was done.

The committee to assess Mr. Treavant's lot reported that it was worth $30 a foot. This was adopted.

J. B. Mosely petitioned for pay for starting once to go to Georgia, on behalf of the city, to g t Confederate money changed. He went ten days, but found the business could not be done and so came back again. The petition was referred to the Finance Committee.

Dr. Laski, County Physician, sent in a petition that as there are eighty city patients in the County Hospital, and as that institution is very badly supplied with cots, those useless in the old hospital building should be given to the use of city patients in the County Hospital. For some reason this petition was laid on the table.

John R. Graham asked that the appropriation to Groves at the last meeting be changed so as to give it to him (Graham). It seems that at the corner of Charleston avenue and Adams street, there is a very little bit of ground belonging to somebody, and a little piece belonging to the city. A fit was given to somebody to build a house on the little bit of ground, but it was put all over that and on much city ground. One party now claims the little bit of ground, or part of it, and others the house. It is tangled case, and the city is likely to get into trouble in opening the street.

Alderman Lynn presented an ordinance to condemn the little bit of ground. The ordinance passed its first reading.

The petition of Mrs. Mary Cleland was approved. The ordinance then passed to its second and final reading.

Alderman Lynn presented a number of petitions that were appropriately referred.

Alderman O'Donnell presented a number of petitions from five widow ladies, asking the repeal of the Pound Ordinance. Referred to Ordinance Committee.

A plank sidewalk is ordered on Orleans street.

A resolution to grade Jones' avenue, Boundary avenue, and all the intervening streets was lost.

Aldermen Amis, Cochran and Lemon were appointed a committee to ascertain whether it is necessary to go to Paducah, as his honor the Mayor suggests.

Aldermen Wickersham, Ruffin, Holst, Lynn and Powers were appointed a committee to investigate the proposition of the Mayor, relative to the establishment of an asylum for the mackerels.

The request of Dr. Keller to appoint two resident students at the Hospital, was complied with.

Aldermen Passmore, Shaw and Powers were authorized to vote on the stock or the city at the next election for officers of the Memphis and Ohio railroad.

The message to authorize the holding of a special session, to authorize the issuance of $100,0 0 twenty year bonds, to be given to the Gayoso Gas Company for stock, was offered.

Alderman Ruffin showed that the stock in the gas company was certain to advance in value, and that gas now costing $6 a thousand feet, can be supplied to the city at $3, and to general customers at $4. It passed its first reading, and was referred to the Ordinance Committee.

A resolution declaring the street railroads on Main, Poplar and Beale streets nuisances, and ordering their removal, was passed.

On motion, the Board adjourned.

RIVER NEWS.

AVALANCHE OFFICE,
WEDNESDAY, September 4.

BUSINESS—WEATHER—RIVERS.

Weather clear and pleasant. River falling with seven feet on the bars to Cairo. The Ohio is stationary at Louisville, with three feet nine inches in the canal and a half feet on the bars in the lower Ohio. The Arkansas is receding slowly, with scant thirty inches in the channel. White river is declining with four and a half feet on the bars.

IN PORT.

J. S. McCune, Sam J. Hale, Victor No. 2.

MISCELLANEOUS.

Yesterday was a most delicious day. The air being enlivened by a fresh breeze, and the sun by no means oppressive. There was little movement in cotton.

The pilots of the City of Alton report only seven feet on the bar at the head of Plum Point, which is the worst place between here and Cairo. The best water is close up to the head of the bar. Navigation between here and Cairo is much impeded and very precarious. The Continental and Henry Ames, which left there on Sunday for New Orleans, are reported hard aground at Belleisle bar, and will probably have to lighten over.

The Sam. J. Hale arrived from Cincinnati yesterday with a large cargo of groceries, etc. She returns to Cincinnati to-day at five p.m.

Captain Harrison Blaisdell, late of the Harry Dean, arrived in the city yesterday, and is stopping at the Worsham House.

Mike McCosip, the champion shoulder striker, was formerly a deck hand on the Memphis and St. Louis packets, in 1860.

Charley Clark claims the credit of bringing him out.

The Louisiana passed down yesterday from Cairo to New Orleans. She added here a few lots freight, and eighty soldiers, en route for New Orleans. They came by rail from Newport, Kentucky.

Captain Jim Pierce has returned from the North, and has resumed his duties as Steamboat Passenger Agent.

The Commercial cleared for White river, with a full trip o people and freight, as usual. Her success is an eyesore to opposition, and will continue so during the season.

The John S. McCune, Captain Duffer, is advertised to leave on Thursday for White river.

The Belle St. Louis is the regular Thursday Cairo and St. Louis packet.

The Virginia, from New Orleans for St. Louis, passed up yesterday afternoon.

The Natoma, for Vicksburg, cleared yesterday with a fine trip.

The Ozark, for Little Rock, got off with all the freight she wanted.

The City of Alton backed out for St. Louis with a fair passenger list.

Captain Levy is in Louisville, looking after the interests of the various steamers he represents.

The old Argonaut No. 2 will be placed in the Louisville and White river trade. The Argonaut is a poor craft to send out to build up a trade. Better keep her at the falls, Charley.

Philip Metchis, mate of the Minnesota, was killed by a raftsman, near Winona, Saturday.

David Campbell, on Saturday, sold at St. Louis the F. W. Brooks to Captain Cable, for $8,000. She goes into the Tennessee trade.

The reception of Mike McCoole at St. Louis is to be a grand affair. So says the St. Louis *Democrat*.

On Saturday, at St. Louis, Mr. Beenoke, of the United States Savings Institution, sold to General G. K. Warren, United States Engineer Corps, the steamer C. G. Cadwgr, and to parties who will build a new hull and outfit, the Silver Wave was sold. General Warren also became the purchaser of the steamer Montana. General W. will use the Montana and Cadfrey for the purpose of improving the navigation of the upper Mississippi.

The St. Louis *Democrat* of Saturday says a merchant of that city drayed a box of "merchandise," the other day, to the steamer Henry Ames. Accidentally, the box was broken, and a keg of powder was displayed. A fine of $500, we believe, and imprisonment, are the punishment for this sort of offense.

The Magenta has finished her repairs at St. Louis, and is loading for New Orleans.

The fine new pressure steamer Richmond, Captain Stut Neal, will enter the Memphis and New Orleans trade, leaving here every alternate Wednesday. She will start on her first trip on the 9th of October, and will continue regular in the trade.

The Indiana, Captain Rube Neal, will ply in the Memphis and New Orleans trade, leaving here every alternate Saturday. These fine packets are well adapted for the trade, and we feel assured they will be well supported in the trade. We still contend that the Memphis and New Orleans trade will support a good line of packets. The cotton and grain crop is his year are larger than they were last, and there will be more business doing.

The railroads are cutting off the trade of the Ohio river, and before long there will be little doing in the Ohio above Evansville, except in heavy freights. The Memphis and Louisville railroad will carry the people and light freights. The falls city will have superabundance of tonnage this season.

We feel confident the Richmond and Indiana will meet with success.

The Louisville *Courier* of yesterday says that the owners of the J. S. McCune, a Memphis and White river boat, desire to either sell her or place her in the Louisville and White river trade. It would be better for Captain Duffer to sell the McCune than enter the Louisville and White river trade, unless he wished to lose some of "Chase's" pictures.

Captain Cannon is rusticating at Louisville.

The Ohio at Cincinnati was receding slowly on Sunday evening.

The Empire is loading at Louisville for New Orleans.

The General Quitman is advertised to leave Cairo for New Orleans on the 10th.

The Continental, Captain Pat Yore, will be found at the wharf this morning to receive for New Orleans, and will leave at noon.

The Henry Ames, Captain Cranford, is due, and will leave the City Wharf-boat during the afternoon for New Orleans and the bends.

The Friar's Point *Coahomian* is somewhat sweet on our favorite public house, the Worsham House. Friend Reed has been there, and can speak by the card. He calls it the finest in the Bluff City, and says "persons putting up there will never regret it." After talking of the table, and the nice, clean bed, he concludes by advising "persons going to Memphis to stop at the Worsham House."

In company with Thompson, of the *Bulletin*, and English of the *Appeal*, who, not having the fear of the law or gospel before their eyes, crossed over with us to Mound City, Arkansas, availing ourselves of the ferry boat, Little Star, and desire to express our acknowledgements for a delightful Sunday evening ride to Captain Zecora and John Walch. Arriving at Mound City we partook of the liberal hospitality of the Jones family, who had the wagon brought out and conveyed the party to the bayou, where the piscatorial art was indulged in, with indifferent success—the Englishman not being able to persuade a finny monster from his element, and the Thompsonian mistaking golden shoe y for John Barleycorn. For it must not be neglected, on any account, to mention that Marlin, Wait & Co. furnished an abundance of capital liquid supplies, while the cigars were from the excellent stock of Toof, Phillips & Co. The par y were indebted to Mr. and Mrs. Jones for their hospitable attention, and a capital supper and breakfast with intervening lodging. The accommodations are extolled as quite interesting to the experienced traveler, and it is a matter of surprise that our citizens do not make it a place of more frequent resort than they do. The Peosta plies regularly between the two places, and Mound City is looking up decidedly. The late excursionists intend to give it another trial at the close of this week, and expect to fill their baskets with the "treasures of the deep."

WANTED.—An accomplished and experienced young lady wants a situation as teacher. Address "H," at this office.

CASH BUYERS.—Are invited to examine the largest stock of hats and caps in the South, to be sold out cheap for cash. Merchants visiting the city are requested to examine our stock.

MILLER & LEIDY,
269 Main street, opposite Court Square.

Don't forget the old reliable Schwob Restaurant, No. 18 Adams street, where can be had the best the market can afford. The kitchen and dining room is under the management of the well known caterer, Sam Harmon. Also, a few furnished rooms for rent, with or without board, at a reasonable rate. tf

VOADOUISM.

A Congo Superstition Singularly Exemplified in New Orleans.

A New Orleans correspondent of the Cincinnati *Commercial*, tells the following story:

About every two years we have an excitement over Voadouism, a practice in the witchcraft line, alleged to have come from Africa, and now practiced by the old Congo negroes, their decendants and associates. Strange as it may seem, I have seen parties of education and respectability, who firmly believe in the power for evil of these conjurers, who assert that they have found in their pillows and mattresses the charms and devices used by Voadou, and could not explain their presence there. The Third District, the French portion of our city, is now filled with stories of these mysterious workers of evil, one of which I will give you, vouching for the truth of the circumstances, but leaving their cause unexplained:

The wife of a baker, Mr. M., residing in the Third District, and doing a good business, presented her husband with a son about eight months ago, and there was great joy in the family. When able to go out, Mrs. M. was invited, with her husband, to dine with an old friend, Mrs. B., residing near the lower cotton press. The invitation was accepted, and in due time the M. family found themselves under their friend's roof; other guests were there, and every thing went well until dinner was announced. At the table, Mr. M. was suddenly seized with a fit—he has not been able since to explain—and, springing up, he broke the plates, threw the chairs around, abused his wife in a fearful manner, and acted like he was crazy. When they returned home, Mr. M., who is a kind and indulgent man was extremely sorry for his conduct, and to make amends prepared to give a large christening party. To this over a hundred invitations were issued. Mrs. B. being included of course.

When the guests were seated around the table, which was well filled with all the meats, delicacies and wines most appreciated on such occasions, Mr, M. was once more taken with a destructive fit, and demolished everything he could lay his hands on. A few days after this, Mrs. B. called on the M's., and was discovered in a bedroom by a colored servant, who at once declared Mrs. B. was a Voadou and ordered her out of the room. This, of course made a great fuss, and Mrs. B. left the house very angry. Going to a woman in the neighborhood who had a flock of geese, she asked the price of them, and was told they were not for sale. She insisted on buying some of them, and when flatly refused, said: "Well, you will be sorry for this," departing in the green where the geese were feeding. she began to dance around them, uttering some unintelligible words, and acting in a strange, half crazy manner. Every morning afterward one of the flock was found dead, until they were all gone. Since then Mrs. M's baby has been very sick, not with any known disease, but growing weaker and more emaciated, until it is now a little skeleton. A few days since, Mrs. M. opened her pillows and mattrasses and found therein a collection of what are called Voadou charms. They were made of feathers of various bright colors, well arranged with dark and black ones, and were in the shape of crosses, fans, mats, wreaths, and a very neat crown. How they came there, no one knows; but that they were there, many of the neighbors, as well as the family, are ready to testify. There is much excitement about the affair, and other strange stories are told; but I give this one as a sample. The parties are good citizens, reliable in character, and intelligent people.

Æ rial Navigation—"A California Bird"—The Machine Described.

California papers give the particulars of a serious attempt, in that State, at serial locomotion. The inventor of the "Antor," as the "bird" is called, is Frederick Mariott, of San Francisco. Practical engineers and mechanics have looked into the principles of its construction, and pronounce it feasible. Shrewd capitalists have furn'shed the means of testing it. The constructors are as well assured of success as were Fulton, Stephenson and Morse. The moneyed men who invest have no doubt as to the profits. At Shell Mount Park, about nineteen miles from San Francisco, a large building has been put up for the purpose, and contains the unfinished machine. In shape it resembles both a hen and a bird—a plump, short-necked, short-billed bird in the act of flying. From stem to stern—or rather from bill to rump—is seventy-six feet, while the tail adds twelve feet more. Its transverse diameter in the largest part is twenty-one feet. Its wings extend ten feet on each side, and are so constructed that one part is always outspread while another part is moveable at the will of the engineer.

The tail, which is like that of a fish, will be under the same control, and can be so moved and deflected as to give it all the advantage of a rudder. The skeleton is formed of bamboo poles and light rods of red wood, braced and held together by wires of steel and ropes of iron. On the frame is stretched a covering of muslin of the strongest fiber, and coated with varnish, which makes it impervious to water and to gas. It is to be filled with pure, hydrogen, and will hold 14,500 cubic feet.

So far, then, the machine is virtually o balloon, and depends for its buoyancy and power of rising, in part at least, on the same principle as other balloons. But it is much more than this. Let us look for a moment at the machinery. It is to carry, we are told, a small steam engine, weighing, without the shafting, only thirty-seven pounds, and having a nominal horse power of two and a half but near a four horse.

The boiler is very peculiar. An arrangement of copper plates, looking like the bootrack on an office desk, and not much larger, holds the water and admits the heat. Over this is a steam chest still more diminutive. Four and a half gallons of water fill the boiler, and a small tank holds seven gallons more. Two or three pecks of charcoal are close at hand, and these supplies are regarded as sufficient for two hours' working at full speed.

To receive the machinery space is left in the lower part of the body reaching from side to side, and to about half the hight. The power is applied to a shaft placed in the upper part of the cavity and extending through. To each end of the shaft an arm is attached, which terminates in a two bladed screw. These screws are the legs and webbed feet, with which the gigantic duck is to paddle and work its way in the upper air. The machinery of those propellers is so adjusted as to enable the engineer to vary their position to the extent of ninety degrees, accordingly as he may wish to rise or fall, or move laterally in any direction.

To rise to any hight it is claimed that he needs but to place her propellers at an angle of forty-five degrees, or less—depress her movable wings ten or twenty degrees—give her tail a twist, and she will describe a number of spiral circles until she attains the hight required. While the gas holder remains in good order, and her wings remain in position, she cannot fall so rapidly as to endanger the lives of her passengers, even though the engine were out of repair.

The engineer or conductor is to occupy a sort of cage, centrally placed within the cavity which holds the machinery. The fire and the fuel, the engine, boiler and gauges, and the strings which move the train, are all close at hand. He can look down, but not much ahead. As there are no breakers, nor icebergs, nor lee shores in the serial ocean, a front view is of little moment.

One difficulty seems not to have been foreseen. The atmospheric air must be excluded from the bird before the hydrogen can be sent in. But the stiff ribs prevent collapse. Some remedy for this must be found.

Two English inventors have just exhibited in the streets of Paris a musical locomotive, which ran backwards and forwards to the air of "The Tannhauser March."

The Mount Auburn Young Ladies' Institute,

SITUATED on that beautiful eminence north of the city of Cincinnati known as Mount Auburn, it carries its name, has just closed its twenty-second session.

The past year has been one of unusual prosperity, there having been in attendance two hundred and thirty five young ladies, gathered from all parts of the United States. No case of sickness has occurred during the session.

Its healthful location and its country position, while yet so near the city, gives it advantages over other city or country schools.

Its character as a first rate Seminary of Learning is too well known to need further comment.

The Library, Cabinet and Philosophical Apparatus, already very extensive, are receiving yearly additions.

ANNUAL CASH DIVIDENDS,

JUNE 1st, 1867

Assets : : : over : : $4,500,000
Cash Income : over : : 2,500,000

KINDS OF POLICIES ISSUED.

The Society issues all the most desirable and popular kinds of policies, assuring any sum, on a single life, from $100 to $5,000. Every conceivable liability of life is taken, possible to one and all as State legislation and local adjudications have made necessary.

Moot courts will be held weekly, in which the practice will conform in every essential respect to the rules, modes of procedure and arguments adopted in the following courts:

DIVIDENDS.

Dividends of profits are declared annually, free from tax, and may be in all cases applied, when so desired, as cash to the reduction of future premiums. Dividends on the first year's premium may be applied to reducing the second year's premium, and so on annually thereafter.

The following are the several modes of applying dividends conceded to the assured by the Society:

FIRST—To the permanent increase of the sum assured.

SECOND—To the increase of the sum assured for one year or a term of years.

THIRD—To the permanent reduction of the premiums.

FOURTH—To the reduction of the premiums for one or more years.

FIFTH—To the limitation of the number of years in which premiums are to be paid.

It is believed that this Society—as it was the determination of its founders that it should do—presents:

The best and most liberal system of transacting business—The best record of success in practice—And largest returns to policy holders.

GROVER & BAKER'S

CELEBRATED

ELASTIC STITCH & LOCK STITCH

SEWING MACHINES

Why the Grover & Baker Machine is Best.

1. It is more simple, durable, and less liable to derangements than others.

2. It sews from ordinary spools, and no rewinding of thread is necessary.

3. It sews with equal facility all fabrics, the most delicate and heaviest, and with all kinds of thread silk, cotton or linen.

4. Its seam is so strong and elastic that it never breaks, even on the thinnest muslin.

5. It fastens both ends of the seam by its own operation.

6. Its seam, though cut at every stitch inch, remains firm, and neither runs nor ravels in wear.

7. Its seam is more plump and beautiful, and retains its plumpness and beauty after washing better than any other.

8. Its seam can be removed in altering garments, after proper instruction, without picking or cutting.

9. Watching and placing the tensions on the threads necessary in other machines, is unnecessary in this. The tension being once adjusted on the Grover & Baker machine, any amount of sewing may be done without change.

10. It makes beautiful embroidery without the many change of aracs, sewn simply by inserting threads of suitable sizes and colors for the purpose. It is the only machine that b th embroiders and sews perfectly.

Trustee's Sale.

Valuable Mississippi River Plantation for Sale.

BY virtue of a deed of trust made to me as trustee on the 16th day of October, 1865, by R. T. Harrell, and which is duly registered in the Register's office of Tipton county, Tennessee, in record book of, page 10, and 300, and to which reference is here made, and in pursuance of the terms thereof, I will proceed, on Friday, the 6th day of September, 1867, between the hours of 10 o'clock a. m. and 4 o'clock p. m., at the Postoffice in Memphis, Tennessee, to the highest bidder for cash, the following real estate, described in said trust deed as follows: A certain tract of land, to-wit: Lying and being in the county of Tipton and State of Tennessee, situate on the banks of the Mississippi river, adjoining the lands of John Trigg on the north, John and R. S. Nelson on the west, and Potter's land on the east, and Samuel Nelson on the south, containing six hundred acres, it being Renton's on the south, containing six hundred acres, it being the tract of land sold by Susan Brown to R. T. Harrell on the 16th of December, 1865; said deed of trust also conveys with the land all cattle and hogs, corn and cotton crops on the place, and all farming utensils and mechanics' tools, which will also be sold at the same time.

There is now said to be a magnificent cotton crop growing on the place. There is a comfortable dwelling house, also other outhouses and buildings on the place, and is known as the plantation formerly belonging to Bedford Brown, Esq. The title will be positive, as is made for the payment of a balance due on the purchase notes.

Equity of redemption is waived. The title to said property is believed to be undisputed, but I will only sell and convey as trustee.

Attachment Suit.

Toof, Phillips & Co., plaintiffs, vs. Iglehart Brothers, defendants.

SAID defendants will please take notice that an attachment was issued against their estate returnable to the next (5th) October, 1867, by a justice of the peace in the County, upon the grounds that the defendants are non-residents of the State of Tennessee, and returned levied, etc.; it is therefore ordered that the defendants enter their appearance on or before the 5th day of September, 1867, at plea, answer or demurrer to said plaintiffs' complaint, or the same will be taken for confessed and the case set for hearing ex parte, and that a copy of this order be published once a week for four consecutive weeks in the Memphis Avalanche.
